Subject: Greer Planning Commission resignation

Brandon,

Please consider this email as my official resignation from the City of Greer Planning Commission, effective December 31, 2019. I’ve greatly enjoyed this opportunity and learned a lot over the past 5 years. While it’s bittersweet to resign from the Planning Commission, I look forward to the opportunity to continue to work together and to serve Greer as I move to council.

I’ll look forward to seeing you soon.

Sincerely,

Mark Hopper

Election of Mayor Pro Tempore

Summary:

SECTION 5-7-190. Mayor pro tempore elected from council membership. Immediately after any general election for the municipal council, the council shall elect from its membership a mayor pro tempore for a term of not more than two years. The mayor pro tempore shall act as mayor during the absence or disability of the mayor. If a vacancy occurs in the office of mayor, the mayor pro tempore shall serve as mayor until a successor is elected. (Action Required)

RESOLUTION NUMBER 1-2020

A RESOLUTION CERTIFYING
DECLARING THE CITY’S INTENT TO REIMBURSE ITSELF FOR CERTAIN EXPENDITURES MADE PRIOR TO THE CITY’S CONSUMMATION OF A FEDERALLY TAX-EXEMPT FINANCING.

WHEREAS, the Internal Revenue Service and U.S. Treasury Department have promulgated Treasury Regulation, Section 1.150-2 (“Regulation”) that authorizes a political subdivision to reimburse itself for expenditures made with respect to projects prior to the issuance of tax-exempt obligations for the projects;

WHEREAS, the Regulation requires the governing body of the political subdivision declare its official intent to reimburse an expenditure prior to the incurrence of the expenditure;

WHEREAS, the City of Greer, South Carolina (“City”), anticipates incurring expenditures in an approximate amount of $2,800,000.00 (“Expenditures”) for designing, planning, acquiring, constructing, installing, and equipping a public golf course and related recreation structures, facilities, and equipment (collectively, “Project”) prior to the City’s consummation of a federally tax-exempt financing for that purpose.

THE CITY COUNCIL OF THE CITY OF GREER, SOUTH CAROLINA, RESOLVES:

The Council adopts this Resolution to declare the City’s official intent to reimburse the City for Project-related expenditures, incurred and paid on and after the date occurring 60 days prior to the date of this Resolution’s adoption, from the proceeds of federally tax-exempt obligations of the City.

The City understands that expenditures, for which the City may reimburse itself, are limited to expenditures, which are (a) properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of “placed in service” under the Regulation) under general federal income tax principles; and (b) certain de minimis or preliminary expenditures satisfying the Regulation’s requirements.

The City anticipates the source of funds for the pre-borrowing, Project-related expenditures to be the City’s general fund.

To be eligible for reimbursement of the expenditures, the reimbursement allocation must be made not later than 18 months after the later of (a) the date on which the expenditures were paid, or (b) the date the Project was placed in service, but in no event more than three years after the City made the original expenditures.

This Resolution shall be in full force and effect from and after its adoption as provided by law. This Resolution shall be made available for inspection during normal business hours by the general public at the City’s office.

MEMO

January 8, 2020

From: Steve Grant, P.E., CFM., City Engineer

To: Ed Driggers, City Administrator

RE: Road Improvement Program

The City of Greer has grown significantly over the last 10-15 years and is still growing rapidly with Commercial, Residential and Industrial growth in the City and in the neighboring counties. This regional and local growth has increased demands on our road infrastructure. Several roads in the City that were built many years ago as farm to market rural roads are now experiencing traffic volumes in both cars and commercial trucks that they were not designed to carry. These roads have limited width, shoulder space, right of way and in some cases, deficient geometry (horizontal and vertical curves). Drivers are experiencing tight passing in the opposite direction and in some cases are running off the shoulder to pass large trucks. These areas are becoming unsafe and a potential liability.

Staff plans to partner with a consulting firm, KCI Technologies, to evaluate West Phillips Road, Westmoreland Road and Brookshire Road. The project will evaluate traffic volume, road geometry, cross slope, accident data, available Right of Way, pavement & marking conditions, intersection function, vehicle type & distribution, utilities, hydraulics and signage.

Project deliverables will be a comprehensive assessment of the roads and recommendations for potential improvements along with cost estimates.

Cost for this project is $64,400 and is funded from the budget.
ROADWAY IMPROVEMENT PLAN:
BROOKSHIRE, WEST PHILLIPS AND WESTMORELAND ROADS

SCOPE OF SERVICES – REVISION #4

Pavement Condition Evaluation Project

Summary:
Greenville County is preparing for a new pavement evaluation in 2020 and City staff desires to contract with their consultant as well to take advantage of their procurement process, unit pricing and also ensure resurfacing program consistency with our neighboring County. Their consultant is Infrastructure Management Services (IMS) based in Illinois.

The estimated cost for this project is $55,700 and is funded from the budget. Staff requests approval to enter into this agreement with IMS. (Action Required).

MEMO

To: Ed Driggers, City Administrator

From: Steve Grant, P.E., City Engineer

Subject: Pavement Condition Evaluation Project – Infrastructure Management Services- (IMS)

In 2016 the City participated with Greenville County when they contracted for a pavement condition evaluation of all County roads. Their consultant also evaluated all Greer City roads along with the County roads and we have used those results to prioritize our paving program for the last 4 years.

The plan at that time was to have subsequent evaluations performed every 4 years to assess current pavement conditions and set paving priorities for the next 4 years.

Greenville County is preparing for a new pavement evaluation in 2020 and City staff desires to contract with their consultant as well to take advantage of their procurement process, unit pricing and also ensure re-surfacing program consistency with our neighboring County. Their consultant is Infrastructure Management Services (IMS) based in Illinois.

Custom built vans equipped with cameras, 2D and 3D lasers and GIS mapping equipment will ride city streets and collect pavement condition data as well as sidewalk and ADA ramp inventory and condition data.

Deliverables will be GIS based road distress data and a road condition score as well as GIS based sidewalk and ADA ramp condition scores that we can utilize to establish a location and condition database and for prioritizing improvements.

They plan to collect the street data in February of 2020 and we should expect completed data in May of 2020.

The estimated cost for this project is $55,700 and is funded from the budget.

Staff requests approval to enter into this agreement with IMS.
